City of Roanoke Pension Plan For Fiscal Year 2020

Message to Our Readers:

We are pleased to present the Popular Annual Financial Report (PAFR) for The City of Roanoke Pension Plan's fiscal year ended June 30, 2020. The Plan's PAFR provides insight into the Plan's financial condition. Derived from the Plan's Comprehensive Annual Financial Report (CAFR), the PAFR is written for those who do not have a background in finance. The document relies on graphics and other visual elements to compliment the financial message, and is not technical in nature.

The information provided in this report is a summary of the Pension Plan's audited financial statements and a snapshot of the Plan, services, financial results, and investments, all of which are reported in more detail in the Plan's CAFR for the fiscal year ending June 30, 2020. The complete audited financial statements and pertinent notes to the financial statements can be found in Pension Plan's 2020 CAFR. The PAFR only provides summary financial information and does not conform to Generally Accepted Accounting Principles (GAAP); the CAFR conforms to GAAP and provides a comprehensive overview of the Plan's financial and operating results.

For more in-depth information, you may obtain a copy of the City of Roanoke Pension Plan CAFR on the city's website at www.roanokecityva.gov.

Funded Status

Actuarial Accrued Liability and Value of Assets

The Plan's funded status:
74.3% as of June 30, 2020

Funded status measures the progress of accumulating the funds necessary to meet future obligations. Historically, periods of diminished funded status were made up as market conditions improved. Similarly, years of enhanced funded status are eroded when market conditions are poor. The Plan continues to maintain this necessary balance by constantly monitoring and adapting to market conditions. The financing objective of the Plan is to fully fund all current costs based on the normal contribution rate payable by the participating employers and employees and to liquidate any unfunded accrued liability based on accrued liability contributions payable over a closed amortization period of 30 years.

Investments

Asset Allocation Mix

Investment Summary

	2020 Fair Value
Fixed Income	\$ 80,157,240
Domestic Equity	\$ 197,550,503
Convertible Securities	\$ 20,023,356
International Equity	\$ 94,211,976
Real Estate	\$ 25,830,079
Short Term Investments	\$ 4,712,202
Total Investments	\$ 422,485,356

The Plan's decrease in Net Position Restricted for Pensions is primarily due to benefit payments having exceeded contributions and investment income, which fell short of the long-term expected rate of return for the portfolio. The Plan experienced an investment return of 4.3%, net of fees, for the fiscal year ended June 30, 2020, with the Fixed Income and Convertible Securities allocations producing the greatest absolute returns. While investment performance declined compared to the prior year, the Plan's long-term annualized returns ranked in the top decile of the investment advisor's comparative universe of all retirement plans.

Our outlook for the U.S. economy remains cautiously optimistic given positive economic indicators and investment performance experienced since the end of the fiscal year. We believe the well diversified portfolio remains well positioned in light of expected continued volatility due to the on-going COVID-19 pandemic and the uncertainty arising from the U.S. Presidential election.
