Priority Statement

Provide exceptional, yet cost competitive government services that are collaborative, transparent, responsive, and innovative.

Summary of Priority

The City of Roanoke government strives to provide top quality services and programs that are cost competitive yet responsive, efficient, collaborative, and transparent. Vital to good government is a culture and environment that promotes excellence while ensuring employees, leadership, and operations are compliant with laws and regulations, effective, customer oriented and managed responsibly. In alignment with the Core Values of Honesty, Respect, Responsibility, Teamwork, Diversity, and Inclusion, Roanoke brings resources together with citizen stakeholders as well as regional localities, non-profits, and businesses to meet present needs and future challenges of the 21st century. The pillars of good government are strong and accountable leadership; competent and motivated employees; efficient and effective operations and responsible financial management. The team addressed the pillars of good government in their work and further developed them as the four causal factors of Good Government.

High Performing Employees

High performing employees are actively involved accomplishing the work of the organization and understand how their job supports the City's vision. They are committed emotionally and intellectually, and are motivated to do their best for the benefit of the community and the success of the organization.

1. Excellent Customer Service

An outcome of high performing employees would be to provide "excellent customer service" to both our internal and external customers. Services provided should be professional, timely, and accurate. In addition, employees should follow through on and be held accountable for commitments to develop a consistent reputation of reliability. Customers want our employees and the services they offer to be easily accessible when they are needed. The public expects to receive convenient, easy-to-use ways to access City services information, facilities, processes, infrastructure, and decision-making.

2. Diverse and Innovative Environment

As an organization, the City should foster an environment that is open to considering new thoughts, ideas, methods, and technologies resulting in a more productive, efficient, and satisfied workforce. Employees will be engaged and innovative as they perform their duties to improve services to the community and reduce costs.

3. High Employee Morale and Engagement

The City values its employees by offering competitive total compensation packages and recognizes their work performance and achievements. As an organization, there should be an investment in employee learning and professional development. In addition, the City should foster employee safety and wellness in the workplace. Knowledgeable and engaged employees lead to high performance and result in excellent internal and external customer service.

4. Highly Competent , Well-Trained Staff

Continually enhance the knowledge, skills, and abilities of our employees to support the provision of quality, professional services. Provide the training, tools, materials, technologies, and other resources that enable the workforce to optimize service delivery to both internal and external customers. Offer regionally competitive total compensation and effective recognition and reward systems to attract and retain a highly competitive, well trained staff.

Effective Leadership

Effective Leadership is the cornerstone of a sound, high performing organization. Exceptional organizations have visionary leaders who set clear direction and high expectations based on the City Council's Vision, customer-driven excellence, and accountability, clear and visible values. This kind of leadership must be courageous and forward thinking. Responsive leaders must be available and willing to share the decision making process and

responsibilities with the staff, the public, other organizations, and key stakeholders. Outcomes of effective leadership include:

1. Broad Vision

The City Council's Vision provides direction to meet the challenges of tomorrow and guidance for the community to achieve success as a regional leader. Strategic Plans are based on Council's Vision and should include a realistic assessment of Strength, Weakness, Opportunities and Threats (SWOT) as well as anticipate factors such as: community expectations, new partnerships, employee development and hiring needs, technological advancements, mandates, and strategic innovations by neighboring jurisdictions. Fostering the organizational vision of collaboration, innovation, and commitment to excellence expands Roanoke's reputation as a shining example within the region.

2. Approachable and Accessible

The public and staff expect leadership to be available and willing to discuss their issues and concerns. Being accessible should not require an individual with a question to go through layers of bureaucracy or have specialized knowledge to reach the desired leader.

3. Inspiring

Create an environment to inspire staff to reach their highest capacity, engaging them to implement the vision and strategic plans using their people skills, passion, values, and knowledge.

4. Results Orientation and Accountability

Provide results by repositioning the organization effectively to provide the products and services the community wants and can afford. Strategic plans are implemented to meet City Council's Vision through organizational objectives, budgets, performance measures, as well as accountability processes and employee feedback measures.

Efficient & Effective Operations

Striving for effective and efficient operations throughout the organization is a fundamental factor in delivering exceptional public service and achieving good government. In today's challenging economic environment, the emphasis is on productive and cost competitive service delivery with the least amount of time and effort gaining efficiency and agility combining enterprise resources with citizen stakeholders as well as regional localities, non-profits, and businesses.

1. Effectively Managed Resources

Effective management of our resources assures that the management of all operational resources is aligned with the outcomes that matter most to the community. Maximize outcomes by focusing available resources such as utilities, infrastructure, employees and funding toward exceptional services. Sub-par services should be eliminated with savings repurposed toward improving citizen direct services.

2. Compliance

Foster an organizational culture where internal service departments assist citizen service departments practice, monitor, and comply with local, state, federal laws, regulations, and mandates. Maintain up to date knowledge and awareness of evolving regulatory and legal requirements.

3. Streamlined Processes

Align all operational processes, strategies, and resource actions to achieve organizational objectives. Recognizing the investment required in a wide variety of innovative technologies as an effective way to automate and achieve end-to-end streamlined processes. Reduce or eliminate processes, procedures, or services that the private sector is able to perform more effectively and repurpose savings to improve other citizen direct services. Utilize Lean processes to realize savings and achieve efficiencies in City processes and services.

4. Accessibility

A component of achieving good government by ensuring that all programs, services, and public information are accessible, fair and handled with open, clear, and effective channels of external and internal communication.

5. Best practices

Best practices are used throughout the organization as a mechanism for comparative benchmarking or as a model for developing processes, practices and systems. This may include following national accreditation standards established for individual local government agencies such as Police, Fire/EMS, E911, Parks & Recreation, and Planning, Building, and Development.

Responsible Financial Management

Achieving responsible financial management is a vital component in providing good government. An organization should be able to manage income, assets, and expenses in a deliberate, well thought out, and fiscally prudent manner by using a well-defined strategic plan that is aligned with City Council's Vision and the needs of the community.

1. Accurate accounting

Ensures employees are using systems and methods which adhere to accepted financial accounting principles. Data provided to internal and external customers should be accurate, timely, clear and concise.

2. Transparency

The community expects a transparent government which is open, honest and accountable. Citizens want to know how their tax dollars are spent and what services they are receiving in return, so an easily accessed and easily understood system should be developed to provide that information.

3. Efficient Fiscal Operations

Ensure the government manages finances in a responsible and efficient manner while striving to find more cost effective methods for performing operations. This includes managing risk, minimizing liability and providing for accountability.

4. Effective Fiscal Planning and Budgeting

Provides both a long and short term strategic direction of City programs, services and capital investments. Employees are actively engaged in reducing costs through innovation and collaboration to ensure critical services are provided during times of stagnant or declining revenues.

Offer Executive Summary

Offer:	Personal Property Tax Administration and Motor Vehicle License	Rank: 7
Dept:	Commissioner of the Revenue	Factor: Responsible Financial Management
Outcome:	Efficient Fiscal Operations	Existing

Executive Summary:

This program is a comprehensive offer which includes the assessment, billing and collections of Personal Property, Motor Vehicle License, Business Personal Property, and Machinery and Tools taxation. As established by Title 58.1 of the Code of Virginia the Commissioner of the Revenue is charged with assessing these taxes. This operation involves assessing approximately 136,014 tax accounts and 120,101 Vehicle License with a current year revenue of \$33.6 million which represents over 8.0% of the city's total revenues. The Treasurer's Office supports this program through receiving all payments, generating past due statements, refunds and business correspondence as well as administering the DMV Stop Program. The Treasurer's Office also provides a strategic collections program for delinquent Personal Property accounts. Bankrupt accounts are administered in order to comply with federal law and to protect the city's interests.

Offer:	FY18 New Supplemental Personal Property Tax Admin. & Motor Vehicle License	Rank: 7
Dept:	Commissioner of the Revenue	Factor: Responsible Financial Management
Outcome:	Efficient Fiscal Operations	Supplemental

Executive Summary:

This request is due to postage increasing January 22, 2017, and actual cost from FY16. The budgeted amount for FY16 was \$55,773 and the actual cost at year end FY16 was \$64,124.17. The City prorates PP bills and therefore, the City mails bills everyday. There is a delinquent bill mailed in June just after the May 31 deadline. We do not have enough money to mail another delinquent bill in November which means that any bills delinquent after the supplemental billings in June never receive another bill until the following year when the Mass Personal Property bills are mailed. We have estimated that with the delinquent billing in June the City received approximately \$40,000 over the next 60 days. We hear from the taxpayers that if we would have sent another statement they would have paid. This creates issues and problems as the taxpayers are upset since they have more to pay because of the interest that is charged each month. This request is for the delinquent mailing in June.

Offer:	Set Off Debt Collection Program	Rank: 8
Dept:	Treasurer	Factor: Efficient & Effective Operations
Outcome:	Streamlined Processes	Existing

Executive Summary:

The Treasurer's Office will administer the City's Set-Off Debt Collection program in conjunction with the Virginia Department of Taxation whereby income tax refunds or lottery winnings are intercepted and applied to a variety of debts owed to the city including library fines, accounts receivables, personal property, real estate, business license, and local tax debts. We also use this program to aid outside agencies such as Schools, Civic Center, and Lancor (Park Roanoke). The amount of claims submitted for calendar year 2015 was \$9.9 million. This program is important to the city for revenue generation and uses technology interfaces to operate efficiently. This is an effective program for handling high volumes of lower dollar debts and keeps costs low for taxpayers while ensuring everyone pays their fair share by using all the tools and programs available to collect delinquent debts. The revenue collected in 2015 through November 2015 was \$792,369.

Outcome:	Streamlined Processes	Existing

Executive Summary:

The Permit Center (PC) is a consolidated intake point for all permits for developers, contractors, and citizens, creating an efficient and seamless process. The PC handles an immense quantity of information and constantly applies technology and best practices to aid in its management. Our goal is timely review of applications (efficiency) while providing safeguards to ensure proper reviews prior to permit issuance (effectiveness). Staff has knowledge of regulatory programs/processes. Empowering staff allows many decisions and approvals to be made at the time of application, leading to fast turnaround on most projects.

To support accreditation, another goal is for staff to be ICC certified as permit technicians.

The Dept. has upgraded to a new permitting system along with an emphasis on electronic processing and review of applications. There is less reliance on paper and mail but maintaining technology and related electronic system is more important than ever.
