ALL window openings on the structure should be assigned a **number** and **described** under the same number on the back of this sheet. Even those not being replaced should be assigned a number, however a photograph of those windows is not necessary, note on the second page that you aren't looking to replace that window number.

Windows in **pairs or groupings** should be assigned **separate** numbers. Windows in dormers and small fixed windows *should* also be included, but *not* door sidelights or transoms associated with a door.

On the second page, describe the issues and conditions of *each* window in detail, referring to the specific parts of the window (see diagram to the left). The photographs can be from the interior, exterior, or both. *Additional close-up photographs*, showing evidence of window condition, **MUST** be provided to better document problem areas.

The Planning and Development Department's evaluation and recommendation is based on deterioration/damage to the window unit, and associated trim. Broken glass and windows that are painted shut are not necessarily grounds for approving replacement.
